PROFILE SUMMARY

B.Tech Information Technology student with a strong foundation in programming, Data Structures and Algorithms, databases, and web development. Hands-on experience through projects, internships, coding practice, and cloud computing training. Passionate about software development and continuously improving problem-solving skills by building practical applications and exploring new technologies.

EDUCATION

St. Joseph's College of Engineering, Chennai	2025–2029
B.Tech Information Technology	CGPA: 9.20
Sri Sakthi Vinayagar Matric Hr. Sec. School, Theni	2023–2025
Higher Secondary Education	Percentage: 95%

SKILLS

Programming: Python, C, C++

Technical: HTML, CSS, JavaScript

Databases: MySQL, MongoDB

Tools: VS Code, GitHub, Canva, Git, QGIS

Core CS: DSA, OOP, DBMS, OS, CN, Cloud Computing

Languages: English, Tamil, Kannada

EXPERIENCE

Web Development Intern — SkillCraft Technology	Dec 2025
- Developed responsive UI pages using HTML, CSS, and JavaScript. - Improved performance and ensured cross-device compatibility. - Built reusable components for web development.	
Cloud Computing Intern — BIG-SI-BUCKS Innovation Pvt. Ltd.	Jun 2025
- Gained hands-on experience with cloud computing fundamentals. - Worked with virtual machines, cloud storage, networking, and deployment concepts.	

PROJECTS

ABHAYA — Women Safety Web Application	[GitHub]
- Developed a women safety web application featuring one-tap SOS alerts, fake mode, secret code activation, fake call assistance, silent selfie capture, and scheduled safety check-ins. - Integrated emergency notification mechanisms using WhatsApp and email while focusing on user privacy, accessibility, and real-time emergency response.	
NEXTASTRO — Frontend Food Delivery Application	[GitHub]
- Created a responsive food delivery application using HTML5, CSS3, and JavaScript. - Implemented interactive menu filtering, cart management, and checkout simulation. - Enhanced user experience through modern UI design, animations, responsive layouts, and real-time interface updates.	

ACHIEVEMENTS

- Solved 1000+ coding problems on SkillRack.
- Solved 150+ problems on LeetCode.
- Completed 5+ open-source contributions on GitHub.

CERTIFICATIONS

- Introduction to Business Analysis Using Spreadsheets: Basics — Coursera
- Cloud Computing — BIG-SI-BUCKS
- Python for Data Science — NPTEL
- AWS Academy Graduate — Machine Learning for Natural Language Processing — Training Badge

TECHNICAL ACTIVITIES

- Participated in AI/ML, Cloud Computing, and Full-Stack workshops.
- Regularly solved coding problems on SkillRack and LeetCode.
- Actively contributed to the Students English Club in college.
